

New changes are coming to CCC Confer on July 30, 2018!

We are excited to bring you to the next level of online meetings in education!

CCC Confer is transitioning to Zoom, a new web based conferencing tool for online meeting and conference calls. Read on to learn more, and get prepared.

Zoom is an online meeting service provided to all employees of the California Community Colleges by the **CCC Confer** project. Connections are Java-free, and support all operating systems and browsers, including mobile devices. Experience high quality video and audio, desktop screen sharing, whiteboard with annotations, waiting and breakout rooms, and more. Record to the cloud, and create a movie file which can be viewed from any device and operating system. **CCC Confer Zoom** connects with Canvas making it easy for instructors and students to participate live, and to view recordings. **ConferZoom** accounts allow for unlimited meeting minutes with up to 100 participants. You will continue to receive the same high quality service and support from the same **CCC Confer** team.
