

CLEAR INTERNET BROWSER CACHE

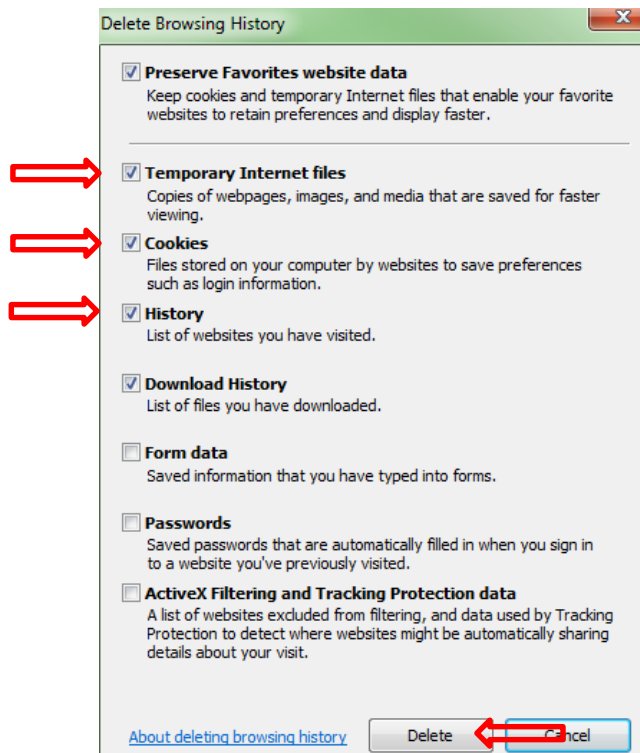

You should periodically clear the cache to allow your browser to function more efficiently.

Internet Explorer 8 & Higher

- Select **Tools** menu
- Select **Delete Browsing History**

- The **Delete Browsing History** dialog box will appear.

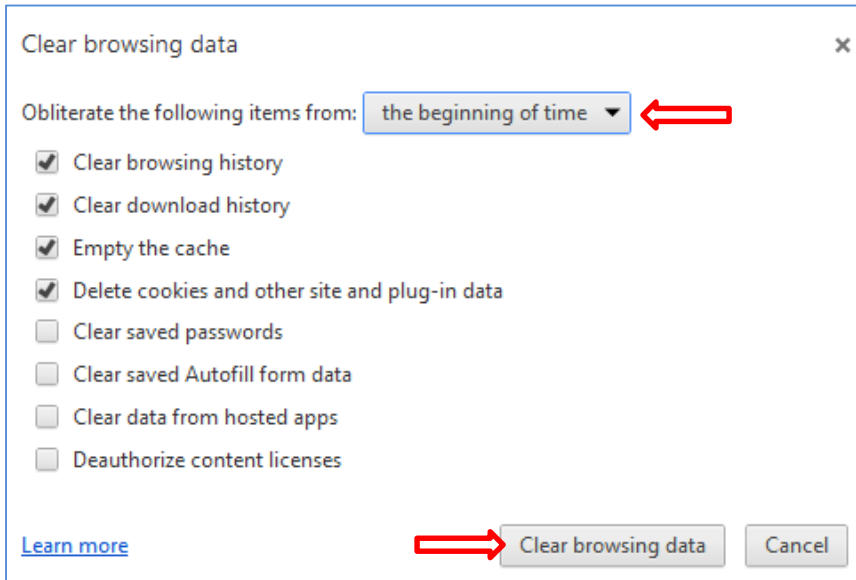

Make sure **Temporary Internet Files** and **Cookies** and **History** are checked.
(Check and uncheck additional boxes per your personal preferences.)

- Click **Delete**. Window will close automatically.

Chrome

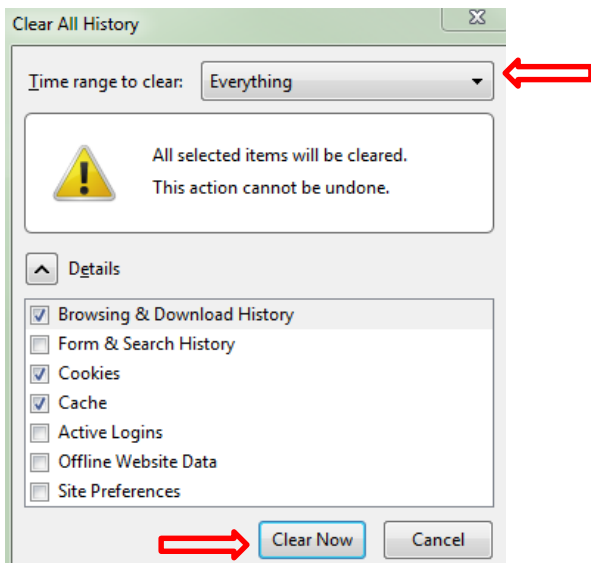

- Click on the wrench icon  on the browser toolbar.
- Select **Tools**
- Select **Clear browsing data...**
- In the dialog that appears, select the checkboxes for the types of information that you want to remove.
- Use the menu at the top to select the amount of data that you want to delete. Select **beginning of time** to delete everything.
- Click **Clear browsing data**. Window will close automatically.

Make sure **Clear browsing history**, **Empty the cache** and **Delete cookies and other site and plug-in data** are checked. (Check and uncheck additional boxes per your personal preferences.)

Firefox

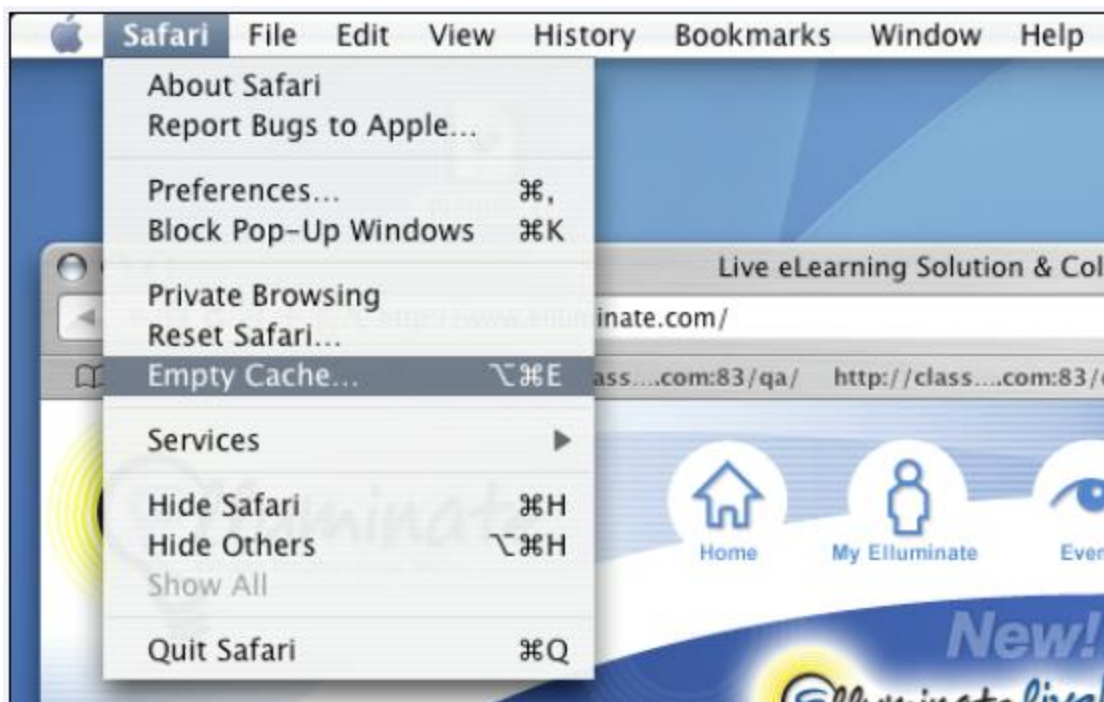

- Click on **Tools** or **History**
- Select **Clear Recent History**
- In the Time range to clear menu at the top, select **Everything** to delete your entire cache.
- Click the down arrow next to **Details** and chose which elements of the history to clear. Click **Clear Now**. Window will close automatically.

Make sure **Browsing and Download History, Cookies and Cache** are checked.
(Check and uncheck additional boxes per your personal preferences.)

Safari

- Click **Safari**
- Select **Empty Cache...**

- Click **Empty**
